## The Times

## ALL ALONG THE LINE.

This is the greatest gala day in the history of Redlands, and doubtless the citizens will entertain many hundred visitors.

Riverside citizens are warming up to the coming election. They are determined that the candidates for office shall be personally committed on the ballot.

Now that a freight rate of \$1 a hundred has been made for transporting California produce to London, the English will soon be found to be full of that staple article of diet.

An acute fit of repentance seems to have seized the young fellow now on trial for perjury, for implicating his friend to save himself. He has gone back on so many things that the jury hardly knows which way is north.

The uncertainty of mundane affairs is exemplified in the death of the old man, who succeeded, after hot litigation, in breaking his wife's will. He won his suit, but joined her in shadow-land before he ever handled the property.

The mass-meeting in San Bernardino Thursday night to discuss the vacancy in the City Board of Trustees resulted in a general surprise, the majority voting to request the Trustees not to hold an election. There seems very little chance for the Second Ward to get a representative on the board.

The Visalia Delta says it has added "a liberal supply of the finest grade of St. Louis bottled goods" to its line-type outfit, and claims in consequence that its quality is of the highest. Champagne is sometimes demanded by typewriters, but the type-setting machines must be able to worry along on plebeian beer.

It is passing strange that college youths breathing an atmosphere redolent of culture should insist on adopting as their battle cry the barbaric syllables that go to make the customary college "yell." "Rackety! Rackety! Zip! Boom! Bah!" Something less gaudy than this string of gutturals would seem to better become the action of a university so staid and respectable as the one adjacent to the western limit of the city.

Arizona can boast of a railroad mileage of 1256 miles. This is a good beginning toward helping develop the 7,330,000 acres of that territory. In exporting, as it did last year, 27,213 head of cattle, Arizona needs good railroad facilities. The gold output of the Territory for the year was \$4,260,000, an increase of \$2,176,750 over 1894, and of \$3,237,495 over 1893. Verily Arizona is getting there in a way that is pleasing to the people of the southwest corner of this great land.

A correspondent of the San Francisco Examiner calls attention to the fact that a Los Angeles firm of railroad store-keepers and contractors is regularly importing cheap contract laborers from Mexico, who are paid at the rate of \$1 per day, from which is deducted the contractors' store bills, the prices charged being from 75 to 100 per cent. more than the same class of merchandise sold in the independent stores. It might be well to inquire whether the Alien Contract Labor Law is being violated by these agents of the Southern Pacific Company.

An Ontario man has a brother-in-law who is an active and enthusiastic believer in the benefits of total abstinence from alcoholic liquors. The brother-in-law offered to give the man twenty acres of land if he would not for eighteen months look upon the wine when it is red. The Ontario man observed his pledge, but meanwhile the brother-in-law decided the property to trustees in trust for the abstainer's children. Now it has been decided by the courts that this action was unwarrantable and the land has been awarded to the abstainer, to have and to hold.

## STATION C.

Better Mail Accommodation for the Merchants.

A number of merchants who do business near Station C some days ago asked for better postoffice facilities at that place. Postmaster Matthews took the matter under consideration, and yesterday replied that he would like very much to enlarge Station C and employ more clerks there, but that such a step was at present impossible. But several changes will be made to expedite the mail service. Hereafter mail leaves Station C at 1:15 p.m., will leave at 1:45 p.m., thirty minutes later. Mail matter for the afternoon Southern Pacific train will be dispatched direct from Station C to the Commercial street depot, leaving Station C at 2 p.m. Hitherto the mail for No. 4 Santa Fe overland and No. 18 San Francisco night train has been collected at 5:15 p.m., but in future it will not be gathered until 6:05 p.m.

This will give the same service as from the main office, and in the case of the afternoon San Francisco train it will give quicker and better service than from the main office, as letters for that train do not leave Station C until 2 p.m. Gen. Matthews believes, from the account which has been kept for the past week of the various letters leaving, that this will give the mercantile community first-class service.

## WASHINGTON-LINCOLN.

NORMAL SCHOOL STUDENTS HONOR GREAT MEN'S MEMORIES.

Patriotic Addresses and Music by Teachers and Pupils—Appropriate Exercises Enjoyed by Participants and Many Visitors—A Lesson in Patriotism.

Memorial exercises in honor of Washington and Lincoln were held yesterday afternoon at the Normal School. The assembly hall was crowded, many visitors being present. Above the platform were pictures of the two great Americans, the one with the stars and stripes, the other with the stars and stripes. While two large silk flags were draped above them. Mr. Dozier, vice-principal of the Normal School, presided at the exercises. The programme commenced with "E Pluribus Unum," sung by the pupils.

E. T. Pierce, principal of the Normal School, made the opening address of the afternoon. He spoke in part as follows: This is a memorial occasion for our two great national heroes; both first saw the light of day in February, Washington on the 22d, and Lincoln on the 12th. As a nation we look forward with high hope to the future, but we can often find inspiration by pausing a moment to review the history of the past. Greece had its Pericles, France its Napoleon, England its Alfred the Great, but the United States can claim two of the noblest heroes who ever trod the earth. Washington will ever be called the beloved "Father of his Country," and the man "first in war, first in peace and first in the hearts of his countrymen." At the most critical time in American history, Washington marshaled the undisciplined forces of the continental army and led them through many a bloody battle, until ultimate triumph came at Yorktown. There is only one character in history which approaches that of Washington, and that is William of Orange. Slavery existed in the days of Washington, but the time for its extinction had not come. At the right time and place, Lincoln was raised to free the nation from that curse. Born and reared in poverty, he raised himself by his own efforts and became a member of the Legislature of Illinois at the age of 25. Lincoln was preeminently an honest man of high principle and undaunted courage. His power of common sense was the basis of good statesmanship. Altogether he was the noblest exponent of truth the world has ever seen.

An essay on the "Life of Washington" by Miss Eva Johnston followed. Born of a noble Virginia family, his early religious and moral training was due to his noble mother. He was fond of every athletic sport, an adept at mathematics, and at 18 was appointed by Lord Fairfax to survey the extensive lands of the Duke of Lancaster. He was then sent to the French and Indian war. During the seven long years of the revolutionary conflict he won the love and confidence of the people of the thirteen States he labored to free. When the Constitution was adopted and all was at peace, the nation looked to him alone to become its first magistrate. After serving two terms and declining a third, Washington retired to Mount Vernon, his beautiful home on the Potomac. His death was looked upon as a national calamity. His character looms up as a beacon in history. He was a great soldier, a great statesman, a great patriot, a great man. He stands as a noble statesman who laid the foundations of the republic. He was a pure, high-minded gentleman of great intellectual force. All the instincts of mankind will honor Washington as the embodiment of the highest possibilities of humanity.

The next on the programme was a selection from Washington's "Farewell Address," read by Mr. Blaisdell.

"The Pilgrim Fathers" was then sung most beautifully by the pupils.

An essay on the "Life of Lincoln" was read by Miss Helen Teggart. Born in 1809 in a log cabin in Kentucky, he was reared in the humblest circumstances. The influence of his mother, like that of Washington, undoubtedly did much to form his character. If George Washington never told a lie, Lincoln never disobeyed his mother. Lincoln was 6 feet 4 inches in height, and unpollished in manner. He had a fund of anecdotes, and was never happier than when "telling stories." His chief entertainment, however, was in the political meetings. "Honest Abe, the rail-splitter," on account of his popularity, was chosen a commander in the Black Hawk war. He had early determined to become a lawyer, and after years of hard study, and through many difficulties, he gained his reward. He was elected a member of the Legislature of Illinois, and served with distinction. By his own power and industry he raised himself to be the head of a great nation.

Lincoln was the architect of his own future. He had said: "If I could save the Union without freeing one slave I would do it, but if I need be I would save the Union by freeing all the slaves. I would do it." He was the right man in the "days that tried men's souls," but was fated to be cut down by the cowardly hand of an assassin in the hour of his triumph. From such lives as his we draw new inspirations for the progress of the human race.

Lincoln's Gettysburg address was then read by Mr. Weir, followed by a selection from the "Commencement Ode" by Miss Hawley.

"Beneath the trees" was admirably rendered by a double quartette of young ladies. Mr. Post next read an essay on the comparison of the lives of Washington and Lincoln. Both labored with a common purpose, namely, the welfare of their country. The name of one suggests the other. As we recount their deeds, let us also compare their lives and characters. Both alike received early religious and moral training from their mothers. Lincoln said: "All that I am and all that I ever hope to be I owe to my angel mother." In the attainment of the end for which both Washington and Lincoln strove, great self-sacrifice was required, and it was made without a thought. Washington was a member of the Episcopal Church, and his every act was that of a believer in God. Some have said that Lincoln was an infidel, but all his speeches and recorded words tend to prove the opposite, for he invoked the divine blessing on all his acts. Lincoln was a Christian in the truest sense of the word. Both alike were sympathetic and believed in moderation in government. During the war when twenty-four deserters were sentenced to be shot, Lincoln said, "There are too many widows now in the Union," and at another time when an officer was condemned, he said, in the kindness of his heart, "I think the boy can do better above ground than under it." Lincoln believed in "making toward none and kindness to all." If we appreciate the legacy left by these heroes of our country we must follow their principles, and imitate their loyalty to God and home and native land.

"Our National Flag," a selection from an address by Charles Sumner, was read by Miss Julia Dwight, and followed by the singing of the "Star-Spangled Banner" by Mrs. Sloan.

The pupils of the Normal School then marched outside the building, where

appropriate exercises were held, and an address was made by Prof. Dr. Dier. Then, as all joined in singing "America," the flag was raised on high, and a glad shout went up from all assembled.

## THE SUNSET CLUB.

Discussed the President of the United States.

The regular monthly dinner of the Sunset Club which was sat down to by the club members at 21 West Third street at 6 o'clock last evening, was made notable by a powerful paper by Judge Enoch Knight, on "The President of the United States." The paper was especially timely, as it was presented on the eve of Washington's birthday, an event which suggested the theme.

Judge Knight showed how prone the every-day citizen is to overlook the importance of the great office and to unduly criticize the acts of the chief executive—an officer of the government who is worse than any other high dignitary on earth, but how with all the position has universally been filled by great men whom it is the duty of the people to respect and honor. Individual worth as because of the exalted and dignified position. It was an able, scholarly and local document, full of deep thoughts and rich with patriotic sentiment. At its conclusion the reader was applauded for nearly a full minute.

H. W. Latham followed with a second paper on the same subject and his treatment of the theme was on an equally high plane. Both papers were of such rare merit that it is a matter of regret that they could not have wider publicity than the circumscribed hearing given them by the membership of a club.

The third paper was a rambling, disjointed, frivolous, disconnected document bearing upon nearly everything except Presidents, by Dr. Kinney. As Mr. Kinney was absent the paper was read by George W. Parsons and the reading was its redeeming feature. The next dinner will occur on March 25, on which occasion Henry W. O'Malley, Esq., will discuss "The Monroe Doctrine."

The new members of the club, elected at the January meeting, were nearly all in attendance and were given a cordial welcome at the banquet board. As Judge Knight, the club's president was, because of being otherwise featured, incapacitated from occupying the chair, Dr. Norman Bridge presided in the former's stead.

## HE CHOKED HIMSELF.

An Insane Man Attempted Suicide in the City Jail.

An insane man named Martin Mortimer tried to kill himself in the City Jail yesterday evening. He was picked up by Officer Sawyer on Washington street about 6 p.m., and sent to the Police Station. As he did not appear to be violent he was given a bunk with the trustees in the kitchen. He acted queerly, but undressed himself and went to bed.

The trustees were instructed to watch him and did so. But at 10:15 o'clock he jumped suddenly out of his bunk, grabbed his trousers, wrapped his suspenders twice around his neck and, hooking the ends, tried to strangle himself. Several trustees grabbed him and tried to prevent him from choking himself to death, but he almost succeeded before they could stop him. After they took the suspenders from him, a terrible struggle ensued. He was strong as six ordinary men, and gave Jailer Sieweke and half a dozen trustees a hard tussle before they could overpower and bind him. He was then sent to the County Jail and locked up in the padded cell.

Mortimer's trouble appears to be religious mania. He said he went to house of a Protestant woman outside the city limits and asked for a drink of water and she gave him a bowl of buttermilk which bewitched him. He was a Catholic, he said, but had abandoned the faith, and was sorry he had done so. He called Jailer Sieweke the pope and said he could see the angels.

FAIR OAKS,  
THE GEM OF HOMES,

COME WITH US  
MARCH 2d

In its sheltered situation on the bluff of the far-famed American River, coursing through the grandest panorama of valley and mountain scenery in California, offers inducements to HOME SEEKERS unequalled. A beautiful drive of a few miles from Sacramento brings you to the spot where the orange and lemon ripen earliest and command the highest prices.

And be among the sixty families who have left the cold and death-dealing winters of the East, and are building, planting and sending out praises to the "four winds" that we have, after years of search, found them a spot of earth where health, happiness and prosperity are assured. Come and we will tell you all about it.

## RIVERSIDE RIVALS.

TWO RAILROAD COMPANIES LIKELY TO GO IN POLITICS.

Death of a Well-known Railroad Man—The Matter of Northern Pacific Receivership—Low Rate on Prunes to London.

An Associated Press dispatch from Riverside says: "There promises to be lively railroad fights in this city in the near future, and the indications are that both the Southern Pacific and Santa Fe companies will take a very active part in the municipal election next month. The cause for this is that the Southern Pacific is believed to be planning to ask the trustees for another franchise through the city, which franchise would give that company the right to extend the old line from Turlock through the heart of the city, thus giving it great advantage over the Santa Fe, whose depot is on the edge of town. At the last meeting of the trustees the Southern Pacific asked the board to modify the old franchise, and to permit the use of any size engine on that line, and today the Santa Fe Company filed a petition with the City Clerk asking the trustees to grant to the franchise on the same track. The fight between the two roads for advantages promises to make the present city campaign the liveliest held here in years."

DEATH OF C. C. WAITE. COLUMBUS (O.), Feb. 21.—Christopher Champlin Waite, president of the Columbus, Hocking Valley and Toledo Railway, died today in his private car in the Columbus. Heart trouble and pneumonia contracted by coming out of a warm room at Jackson, O., in which the banquet had been held in honor of the opening of a branch line to the new coal field, caused his death. He was a son of the late Chief Justice Waite, and was 53 years of age.

NORTHERN PACIFIC RECEIVER. NEW YORK, Feb. 21.—The motion for argument in the matter of the appointment of receivers for the Northern Pacific Railway, made in behalf of the Farmers' Loan and Trust Company, was called today before Judge Lacombe in the United States Circuit Court. Argument was made by Francis Jackson, Jr., for the company, and by Nathan of Cardozo and Nathan, representing the second mortgage bondholders, asked for the appointment of receivers, and Mr. Howard, for the Farmers' Loan and Trust Company, asked for the appointment of receivers, and Mr. Howard, for the Farmers' Loan and Trust Company, asked for the appointment of receivers.

LOW RATE ON PRUNES. SAN FRANCISCO, Feb. 21.—The railroad company has issued a notice that a special rate of \$1 a hundred-weight had been made on prunes shipped to London. The special rate is to be good until March 1. The prunes are naturally much gratified at the concession, and shipments are expected to become very brisk in consequence.

APPOINTED TWO RECEIVERS. NEW YORK, Feb. 21.—Judge Lacombe of the United States District Court has rendered a decision approving of the appointment of Frank Bigelow and Edward McHenry as receivers of the Northern Pacific Railway, this district.

COMING BY BOAT. SAN FRANCISCO, Feb. 21.—The passengers on the steamer Eureka, for Los Angeles are: G. D. Kolbe and wife, Miss Eudge, Thomas Bridge and wife, W. B. Armstrong and wife, and eight steers.

SCRAP HEAP. George H. Daniels, general passenger agent of the New York Central, is on his way to California, traveling in his private car over the Santa Fe. W. H. Mills, of the Southern Pacific, was in the city yesterday.

There will be a new timecard on the Southern California Railway Sunday. The afternoon trains for Redondo and Santa Monica will leave daily at 5:05 p.m., instead of 4:50 p.m. The Sunday morning train for Anaheim and Santa Ana will leave at 9 a.m., instead of 8 a.m. The Sunday morning train for San Bernardino, Redlands and Riverside and intermediate stations will leave at 9 a.m., instead of 8:20 a.m. Afternoon trains on Sunday for these points will leave at 4:45 p.m., instead of 4 p.m.

DEATH RECORD. DOUGLASS—Mamie Frances Douglass, at the age of 23 years and 3 months. The funeral will take place from the vaults of Evergreen Cemetery Sunday, February 23, at 1:30 and 2 p.m.

MOURNING hats and bonnets rented. No charge to customers. Zobel's, 215 S. Spring.

TO REDLANDS TODAY. Southern Pacific round-trip, \$2.05. Trains leave Arcade depot 8, 9:20 a.m., 2:30, 4:30 p.m. Special returning after the ball.

NORWALK OSTRICH FARM. Two hundred birds of all ages. Round-trip 50 cents, on Sundays 50 cents. Take Santa Ana train. See Southern Pacific time table this paper.

SEAS OF THE REVOLUTION. The annual meeting of the Sons of the Revolution for the election of officers and the transaction of much important business, will be held in rooms 404, 405 and 406, of the Stimson Block, in the city today, commencing at 2 o'clock. The one hundred and sixty-fourth anniversary of the birthday of George Washington will be celebrated in the evening by a dinner at the California Club, corner of Broadway and First street, at 7:30 p.m.

TOTAL ORANGE SHIPMENTS. The total quantity of oranges shipped from all points in California up to, and including, Saturday, February 15, as reported by the Santa Fe and Southern Pacific railway companies, was 3645 carloads.

For nearly a half-century Dr. Price's Baking Powder has ranked foremost.

#### Horace Lawn Reverts to His Original Testimony.

#### John Wilson Dies Before Obtaining the Disputed Estate.

A Bid to Pave Main Street Favored by the Board of Public Works. Gathering Data for Headworks Suit—City Hall Notes.

The Board of Public Works yesterday prepared a report to the Council recommending the acceptance of J. T. Long's bid for the paving of Main street. A variety of other matters pertaining to street-improvement matters were acted upon by the board. The City Engineer, with his assistants, yesterday completed the work of gathering data for the coming suit for the condemnation of land to be used as a water system headworks site. At the Courthouse the trial of Horace Lawn was resumed and signaled by the defendant's denial of his confession. Judge Pierce commenced his work in Department Three by trying a suit brought by the heirs of the late Sanford Johnson to recover life insurance. Harry Coyne was transferred to the County Jail having obtained a change of venue to the Township Court. John Wilson, who succeeded in breaking the will of his wife, Bridget Wilson, died before he could inherit the property.

Engineers to Report. After a thorough survey and investigation, the corps of consulting engineers will today report to the City Attorney the results of their work in the matter of obtaining data, to be used in the coming suit to condemn land for the water headworks site. The trial of Horace Lawn was resumed yesterday, and the last trip to the scene of the investigation was made by City Attorney George F. Kunz, who was accompanied by his assistants yesterday. Photographs showing the topography of the country have been taken, and these will be used as evidence by the City Attorney in the trial of the proceedings next Friday.

#### Dumping Grounds Specified.

Health Officer Steadman has prepared copies of the following notice, which will be posted in conspicuous places throughout the city: "For the convenience of the public, the following places are designated as dumping grounds for manure: East Los Angeles, East Side Park; Boyle Heights, East Side Park; Hollenbeck Park; city, southeastern portion, crematory grounds on Ninth street, and San Francisco avenue, southwestern portion, Westlake Park. Any person or persons found by the police or Health Officer, dumping manure elsewhere, will be liable to a fine of \$100, under the general sanitary laws of the city."

Building Permits. Permits for building purposes were issued yesterday as follows: Mrs. M. J. Schilling, a dwelling on Twenty-first street between Main street and Grand avenue, to cost \$2485. F. S. Binkley, a dwelling on Tenth street between Main street and Grand avenue, to cost \$1775. C. Specht, a dwelling on Main near J. T. Long, to cost \$400. The City Hall will be deserted today, as none of the offices are to be open for business. Superintendent of Schools Fosha conducted a flag-raising at the Sixteenth street school yesterday. A coronial inquest was held by Troop D. Cavalry, yesterday, with the City Clerk, inviting the Council to attend an entertainment to be given by the troop in the near future.

The semi-annual inspection and parade of the fire department will take place at the Plaza today at 11 o'clock. The city will wear their new cap which have just arrived from the East. W. H. Mills of the Southern Pacific Railway company was noted in the City Hall yesterday, his presence being explained by the fact that certain information relating to the various industries of the city of Los Angeles is being obtained in the City Hall. He made numerous inquiries, especially about the number of water consumers.

### AT THE COURTHOUSE.

#### THE COURTS.

#### Horace Lawn Reverts to His Original Testimony.

The trial of Horace Lawn for perjury still goes on without any very satisfactory results. The defendant put upon the stand yesterday afternoon, and denied the statement made after his arrest, in which he confessed that he had committed perjury when on the stand during the trial of Mace Mayes. Lawn said that he had been offered his freedom as an inducement to full confession, and had sworn to the statement in order to save himself from the penitentiary.

When asked by Judge Smith if he had been willing to sacrifice Vanderkarr in order to save himself, Lawn admitted that he had, but stated that he was sorry afterward, and had apologized to Vanderkarr in the jail for having betrayed him. There was quite a heated dispute about whether or not the statement made by Lawn should be admitted in evidence, which was finally decided in favor of the prosecution, and the statement was read to the jury.

Ysidro Ruiz, the defaulting witness in the case of the woman who had been issued the day before, was brought into court, after having been unearthed by Con Mallory, who dug him out of a hole in the ground. He was brought in by a man and drove all night to get him in Los Angeles by the time court should convene. The old Mexican was cleared of his limited knowledge of the English language had led to his presenting himself at the trial of Dick Vanderkarr in the mountains, secure in the conviction that he was put upon the stand.

He was put upon the stand, and again told the story of the killing of Perry Neely's blue coat, in substantially the same manner as he testified at the trial of Mace Mayes. The case will be resumed on Monday.

#### CHARGED WITH FELONY.

#### A New Complaint Filed Against Coyne.

Harry Coyne, the detective accused of being the prime mover in the recent attempt to blow up the residence of T. D. Stimson, has secured his change of venue from Police Justice Owens' court to that of Township Justice Young. The entire jurisdiction of the case now lies in the Township Court, until it goes into the Superior Court, the event of Coyne being held to answer. Coyne's attorneys, Theodore Martin and B. L. Oliver, are preparing his defense, which it is understood will be

### BRIDGET WILSON'S ESTATE.

#### John Wilson Did not Live to Enjoy It.

The old matter of the estate of Bridget Wilson has bobbed up again in court, with the death of John Wilson, who successfully contested her will a few months ago, but who did not live to reap the benefits of the case he had won. The will is still before the Supreme Court. If Judge Clark's decision is affirmed, the estate is broken, the property will go to Mrs. Waldron, who inherits from her brother, John Wilson. If the will stands, John McConchie and the Catholic church will have the estate, as Mrs. Wilson wished, based principally on establishing an alibi.

#### DISPUTED LIFE INSURANCE.

#### Suit Brought by the Heirs of Sanford Johnson.

Judge Pierce was sitting in Department Four yesterday, trying a case which had been transferred bodily from Department Three, the transfer including the judge and jury, and the courtroom of Department Four being simply used as a matter of accommodation. The suit in question was brought by the heirs of the late Sanford Johnson against the New York Life Insurance Company to recover \$10,000 on a life insurance policy taken out by Mr. Johnson in 1891. The first premium was paid, but the second and third were not. Mr. Johnson died at Tustin, in April, 1894. The case was made in due form, but the company refused to pay the money, on account of the non-payment of the second and third annual premiums. The heirs now bring suit on account of proper notices not having been given by the company that the premiums were delinquent. The company claims that the notices were given, having been sent to Mr. Johnson's last address, as known, on Washington street. A motion for a nonsuit was made after the evidence for the plaintiff had been put in, and was taken under advisement. The case will be resumed being continued until next Thursday.

#### CALLED TO OAKLAND.

#### The Impending Change in Department Three.

Judge Waldo M. York yesterday received a telegram from Superior Judge W. E. Green, of Oakland, saying that the application had been made to Gov. Budd to order the transfer of Judge York to the seat on the bench at Oakland vacated by Judge Greene on account of ill-health. Although much regret is felt at the impending departure of Judge York, his friends are congratulating him upon what is a decided promotion. In all probability Judge York will sit on the bench at Oakland, and on Monday the bench in Department Three will be occupied by Judge Pierce of San Diego, who is to take Judge York's place. The Superior Court of Los Angeles county.

#### AFTER TWENTY YEARS.

#### Sylvester G. Ingalls Applies for a Divorce.

Sylvester G. Ingalls, who left his wife in Oregon twenty years ago, because they could not live peaceably together, applied yesterday for a divorce on the ground of desertion, but the case was continued by Judge Smith for further evidence. It appeared from the evidence that Mrs. Ingalls must have been a woman of uncertain temper, for Mr. Ingalls testified that she emphatically declined to live with him "or any other d-d man." After this affectionate speech, he decided that their lines would fall in pleasant places if they were a good distance apart. Accordingly, he sold their home for \$2600, gave Mrs. Ingalls \$2200, and taking the remaining \$400 with him, he came to Los Angeles, his wife remaining in Oregon. Things have remained in this state ever since, until now, after the lapse of nearly a quarter of a century, Mr. Ingalls is seeking for legal freedom.

#### A PLUMBER'S BILL.

#### Claims and Counter-claims Brought Into Court.

Justice Young's court was occupied all day yesterday with the trial of an action brought by R. A. Buchanan, a subcontractor, against H. C. Halfpenny, Contractor, W. F. White, to recover \$259.24, alleged to be due him for material and labor upon the plumbing done in two new buildings. The defense put in as counter-claims a bill of \$42.24, assigned to them by Harry A. Reynolds, and alleged to be owing from the plaintiff, and \$299 on various demands made against Buchanan for workmen for labor performed, and assigned to the defendants. The case is not yet concluded.

#### GOT HER JUDGMENT.

#### Miss Westerfield Given a Thousand Dollars.

The case of Miss Nannie T. Westerfield vs. the Los Angeles Record went to the jury yesterday afternoon after exhaustive arguments on both sides. At 4:45 the jurors returned to the box, and the verdict was announced by Judge York to have given \$1000 to Miss Westerfield, as compensation for her wronged feelings over the assertions of Mrs. Simmons and the Record.

#### All About an Old Hat.

A boy named Gustave Darviana obtained a complaint from the District Attorney yesterday, charging John Filat, the cook at a large abattoir out on the Santa Monica road, with battery. Darviana found an old hat in the corral and took possession of it. Filat claimed it, and the boy readily gave it up. This did not avail him, though, for Filat pitched into him and administered a sound drubbing for his presumption in picking up the hat.

#### Judge Clark Returns.

Judge Clark was again seen yesterday in his accustomed place upon the bench of Department Two, having nearly wound up the tangled skein of the Marshall estate in San Diego. Only a few briefs remain to be considered before the final settlement.

#### An Incendiary Maniac.

Minta Moore, a woman of thirty-five, was committed to Highland yesterday by Judge McKinnon. The unfortunate woman had a mania for setting any inflammable articles on fire, and was dangerous to be at large.

#### New Suits.

R. H. Pinney has brought suit against Cecelia Stewart Bryan et al., for cancellation of a deed to property at Long Beach. An exchange had been arranged, but it was discovered that the defendant had not a clear title to the property at Rivera, which was changed for that belonging to the plaintiff at Long Beach.

Henry S. Barr has begun suit against George N. Martin for an accounting of the money received from the sale of a quantity of wines and liquors in Sioux

City, in which the plaintiff owned a half interest, and of which it is alleged that no account has been given by the defendant.

Waldemar Tarp and J. R. Elerath have brought suit against Hannibal Edwards, to recover \$1732.52, in payment for materials furnished for a building on Fifth and Main streets, and for the loss by unnecessary delay in the work caused by the plaintiffs being compelled to pull down the walls after they had been erected.

The trustees of the First Cumberland Presbyterian Church have applied for leave to mortgage a lot worth \$1000, for \$1000, in order to raise money for building a church.

F. A. Berlin has begun suit against Greiner & McCormick, Schee Bros., and J. S. McCormick, to recover \$250.60 due the Santa Cruz Lime Company for materials furnished for the improvement of Maxwell avenue.

Frank Sabich has brought suit against G. A. Clark and Charles H. Humphreys, to recover \$7994.25 on a promissory note.

J. E. Cowles has begun suit against Jose Maria, Arnez et al., to recover \$502 on a note and mortgage. Another suit against the same defendants was filed by J. B. Clapp, to recover \$320.25.

John P. Moran has applied for letters of administration in the estate of John Wilson, the husband of Bridget Wilson, both deceased.

The county of Los Angeles has brought suit against G. W. Blanchard, Frederick Grass et al., to condemn land for the extension of Vine street to Rosedale avenue.

T. P. Jordan has begun suit against J. N. Whitmarsh et al., to establish a mechanic's lien of \$42.

### YOUNG REPUBLICANS.

#### Preparations for a Notable Banquet.

An enthusiastic meeting of the Young Men's Republican League of the Sixth Congress District was held in Judge Morrison's courtroom last evening. The membership of the organization has extended, until, with the new members enrolled last evening, it includes about three hundred of the youth of the Republican party, in this Congress District.

At the meeting last evening a report was received from the Platform Committee reading as follows: "The Young Men's Republican League of the Sixth Congress District of California, by this platform, hereby declares its unwavering allegiance to the Republican party and all its fundamental and vital principles. It is not organized in and for the interests of any candidate or faction, but cordially invites to membership any and all voters who wish to work for the interest of the whole party in the coming campaign. Its purpose is to form an organization where the young men who believe in the principles of the Republican party may have an opportunity to unite their efforts in wisely-directed and harmonious action, whereby the interests of the party may be materially aided. To this end it most cordially and earnestly asks the support and cooperation of every member of the Republican party."

This report was adopted by the league. It is the purpose of the league to

have a banquet on the evening of March 4, which, with the famous men who are expected to be present, and the elaborate preparations that are being made for the occasion, will be a notable affair. Gen. Clarkson of Iowa, Gov. Morton of New York and Robert T. Lincoln of Chicago will be invited to attend the banquet, and as each of these men is expected to be in Los Angeles at the time of the affair's happening, they will, in all probability, make the occasion a noteworthy one by their presence. Turnverein Hall is to be the scene of the political function. Covers will be laid for about two hundred guests. The entire affair will be in charge of the Young Men's Republican League.

Look Out for Sawyer. Officer Sawyer is striking terror into the hearts of the lawless youths who persist in riding their bicycles on the sidewalks, in dry weather at that. He had four victims before Judge Rossier yesterday who gave them a mild sample of Pasadena Justice. Ralph Hamlin was made to pay a fine of \$5. W. A. Bacon and A. R. McIntosh were fined \$2 each, and Ed Smith was lucky enough to get off by yielding up one detestable plunk. Other bicycle riders will take warning and keep off the walks on Officer Sawyer's beat, as he is bent on earning his salary as a special officer and is ambitious to become installed as a regular guardian of the city's peace.

A Man of Valor. Rev. Clayton White, the erstwhile missionary who preaches the gospel of peace, but who proved himself a mighty man of valor by smiting Merchant Laventhal on the jaw, because the latter allowed his carpenters to make noise with their hammers, while White was preaching in front of his store, was arraigned in the Police Court yesterday for battery. He pleaded not guilty, and demanded a jury trial which was set for March 12.

He Stole a Hat. James Murphy got drunk and while in that condition appropriated to his own use a hat belonging to one Uri Citron, for which double offense against the peace and dignity of the State of California, Murphy got a thirty days sentence in the City Jail—ten days for being drunk and twenty for stealing the hat.

Winding Up. The Los Angeles visitors attending the carnival have popularized themselves beyond expectation in Phoenix. It has been thoroughly demonstrated that to the very last man they are royal good fellows, and men who know how to enjoy themselves. The Phoenix people have met them fully half way and have opened their arms to them. The merchants of Phoenix express themselves as delighted with the acquaintances made of these visitors. When they can see equal chances with other points in purchasing, their patronage will go to the Los Angeles business firms.

On their part the visitors are jubilant over their trip. Again and again they say Phoenix is a far better town than they expected to see, that they enjoyed the carnival immensely, and they commend the enterprise of this city as equal to and like that of Los Angeles.

The trip here has been one of continual jollification. Dull care was thrown aside and jests and jokes prevailed.

At Needles they took supper. The repeat over, one of the party called the dining-room to order and read a purported telegram as follows: LOS ANGELES, Feb. 18, 1896.

Los Angeles Delegation: The Queen of the Fiesta of Los Angeles sends greeting. Take Phoenix and use all the red paint necessary in decoration. But by all means attend the prayer-meetings to be conducted by our good Father Billicke.

QUEEN OF THE FIESTA. A hearty laugh followed at the idea of Jolly Billicke conducting prayer-meetings, and the meeting dispersed. On the platform a gentleman in choker and black approached one of the party and handed his card. His name, Mr. Cutter of New York, who had originated and conducted the very successful mid-day prayer-meetings of Fulton street.

"I would like," said he, "to meet this good man, Mr. Billicke, who will conduct the prayer-meetings at Phoenix." Mr. Billicke was sought and gravely introduced.

"Prayer-meetings," he said, "certainly; but first won't you have a drink, Mr. Cutter?"

In Phoenix last night paint of the reddest vermilion flew—but no tales out of school. They are pleasant gentlemen, but none of them took a drop here. It was the Phoenix fellows who did all the painting. The visitors are all quiet, orderly and strictly sober gentlemen.

Last night they originated a new way to be sprung on their return to Los Angeles after the band plays and the Mayor makes his speech of welcome home. It goes thus:

"Rah! rah! we've been out for fun; We've just got back from block 41. For the edification of Los Angeles

readers who have not been to Phoenix, it may be well to explain further as to this "block 41. Block 41 is the center line of the city, and is the main thoroughfare. There the real good people gather and have serious, quiet meetings. The Los Angeles delegation was much impressed with what they saw. They said it was staid and quiet to the extent of being funny. That's what they mean by 'We've been out for fun.'"

This evening a grand reception was given by the Mariposa Club to the visitors. It was the great affair of the season, and society was out in its full numbers and charms.

At midnight they will take their special for Prescott, where they will arrive in the morning. After partaking of the hospitalities of the mountain city, till 2 p.m., they will start for home. They will reach Los Angeles Saturday evening, well satisfied with their outing.

### INDIAN DAY.

PHOENIX (Ariz.) Feb. 21.—This was Indian day for the carnival and Phoenix Park and the Indian camp was crowded to witness the Pimas go through their performances. The Sacaton school Indians went through their evolutions and the bucks and squaws gave their social dances and sang their songs in curious gutters. In the morning the cowboys and Indians "took the town," a theatrical horseback dash being made by them through the city's main streets.

This evening there was given a grand illuminated parade. Thousands were in line, and passengers at places were cleared with difficulty through immense throngs that filled sidewalks and streets. No casualties of even minor importance have been reported as yet. During the celebration the criminal element appeared to be about entirely missing. The celebration will close tomorrow. There will be a Territorial gun shoot, an elaborate wild west show and cowboy tournament, and in the evening a grand masquerade, musical celebration and ball.

### Went to the Poorhouse.

William Warren, the old pioneer who has been driven from pillar to post in a vain endeavor to clear out existence in his sere and yellow leaf, has at last been granted admission to the County Poor House, and he started from the Police Station with his bundle of dirty blankets on his back, for the almshouse institution down the river yesterday afternoon.

It has been thoroughly demonstrated that to the very last man they are royal good fellows, and men who know how to enjoy themselves. Mr. Chamberlain treated of Emerson, a philosopher, and Robert Colwellwood gave an estimate of his literary career and character. After the programme, there was an informal hour of social and musical enjoyment.

**MUNICIPAL POLITICS.**  
**First Move in the Approaching Campaign—Only One Issue.**

The first open move in the municipal campaign was made Thursday evening at a meeting of the "Council for the Suppression of the Saloon and Kindred Evils," an organization formed of delegates from the various churches and temperance organizations of the city.

The meeting was largely attended, and the sentiment developed was unanimous, and was embodied in the following resolution:

"Resolved, that this council takes deepest interest in the forthcoming municipal election, and that it will nominate for city officers, clean, unimpeached, temperance and representative men."

So far as is known there is no party or faction advocating the open saloon in Pasadena. The enforcement of the present ordinance against the sale of intoxicants, seems to be the aim of the council from the churches and societies, and that is also the sentiment of the entire community.

Practically there is but one party in Pasadena, and the inclination to select sound and representative citizens for the prospective vacancies in the Council and municipal offices is widespread.

**WASHINGTON'S BIRTHDAY.**  
**School Children Celebrate—Flag-raising Today.**

The pupils of Washington School celebrated the anniversary of Washington's birthday with fitting ceremony this afternoon. The following programme was rendered: Song, "Red, White and Blue"; recitations, by George Shawhan, Edith Joy, Helen Groves, Jeffery Shawhan, Cecil Jensen, Maud Lander, Duce Henderson, Martha Lamson, Pearl Riddle, Bessie Chamberlain, George Huntley, Belle McDonald and Addie Towne; essays by Harold Clark and singing of choruses were features of the exercises.

The Fair Oaks avenue school, under the charge of Miss Lemon, observed Washington's birthday today in patriotic style. A reception was held at 2 p. m., and E. H. Griffith of Rushville, Ill., made an interesting address to pupils and visitors.

The flag-raising services at the two new school buildings will be held Sunday.

ultaneously Saturday morning at 10 o'clock. Yielding to a petition presented upon the subject, the school trustees have consented to make an exception in names for the school buildings. The new structure upon Lincoln avenue will henceforth be known as the Lincoln building, and the present Lincoln School is to be called the Franklin.

There has been a suggestion made with reference to the flagstaffs on the new building, which may be adopted. The suggestion is that the staffs be hinged in some way, that they may be lowered when repairs are necessary, and that they be fixed on the apex of the cupola, in each case, instead of upon the roof.

**SHAKESPEARE CLUB.**  
**Books of the Year and Heredity and Environment Discussed.**

A large number of ladies assembled in the rooms of the Shakespeare Club this afternoon, the occasion being the regular monthly meeting of that body. Mrs. Judge Stout presided in the absence of Mrs. Keyes, and an interesting programme was rendered.

Miss Lillian Edson read an able paper upon "The Great Books of the Past Year." She said that her subject would be more appropriately named "The Notable Books," because the past year had really produced no truly great books, though it certainly had produced a large quantity of work in every field of literature. The achievements of Marion Crawford, Julia McGrunder, Elizabeth Stuart Phelps, Brander Mathews and others of the great coterie of American novel writers were spoken of, and a selection from Howells' "Literary Pastors" was read.

In the field of science and art, poetry and social science, comments were made upon the character of the various books and articles placed before the club. The paper was heartily appreciated by the club and some comments were made upon it. Dr. Adele Gleason spoke of the novel which had appeared in the magazine, and which was a protest against the club and an ending plea for forgiveness of women of the stamp upon which many novelists have been writing, and the plot was described as the heart-experiences of the man who lapses from virtue.

Miss Emma P. Webb read the opening paper upon the subject of the relative effects of heredity and environment. She made an eloquent and brilliant address, and showed the influence of the great deeds of men. She declared that the deeds of parents were the springs of thought and action in the child, and that the environment may modify, it cannot eradicate, inherent traits.

Miss Anna Dane followed with a paper on the influence of heredity and environment, and showed how influences, how criminals are made or reclaimed, how the environment influences the child, how environment is the soil in which Christian virtues develop, and how the child is the product of the environment.

Mrs. Dr. Conger spoke of the influence of the environment, and that too much stress was laid upon the heredity and not enough upon personal rearing, and the power in man of rearing, and the influence of the environment.

Mrs. Gearhart said that while we cannot choose our ancestors, we can, to a certain extent, choose our environment. We must in the child eliminate hereditary influences and encourage those which are good, and suppress those which are bad.

In the general discussion which followed nearly every member had something to say, and the discussion was a most interesting one, and many of those which have occurred at the meetings this season, was one of great interest, and a real symposium of logical thinkers.

The club had the pleasure of listening to a lecture on heredity and environment, and the discussion was a most interesting one, and many of those which have occurred at the meetings this season, was one of great interest, and a real symposium of logical thinkers.

**NEW INCORPORATIONS.** A certified copy of the articles of incorporation of the Pacific National Savings, Loan and Building Company was sent down yesterday from Sacramento to be filed in the clerk's office in Los Angeles. The company is planned to be located in the city and to purchase and improve real estate for the use and purposes of the corporation. The principal place of business is in San Francisco. The directors are: John H. Wise, William H. Busch, William Pardy, A. D. Hart and C. E. Mackey. The capital stock amounting to \$25,000, divided into 250 shares of \$100 each, of this sum \$10,000 has been actually subscribed.

**THE WATER QUESTION.** The investor has the following pertinent remarks in relation to the extraordinary action of the City Council on the water rate. "The action of the City Council last Monday in fixing, or attempting to fix, the water rates to be charged by the private corporation that owns the waterworks for supplying the city was so peculiar that it has provoked an unusual amount of comment. The members of the committee, in the first place, instead of following a custom that had been established, of fixing the rate of the water company to a conference in which there would be an opportunity to present the matter in all its aspects, and to give the public a chance to be heard, they proceeded to make a sudden and secret move to raise the rates, and to cut the company out of the right which every citizen is supposed to have of stating his own case."

"Accordingly, thinking that it was the duty of the committee to make a sudden and secret move to raise the rates, and to cut the company out of the right which every citizen is supposed to have of stating his own case."

## ORANGE COUNTY.

VAN JOUQUIN RANCH TENANTS  
FIGHTING THEIR LANDLORD.

Something of a Wild-Goose Chase.  
Santa Ana Will Turn Out at the  
Excursion Today—News Notes  
and Personal.

SANTA ANA, Feb. 21.—(Regular Correspondence.) About two weeks ago, several extracts from a copy of the form of the leases used this year by the San Joaquin ranch proprietors were published, since which time the public generally in this county has become deeply interested. The leases are among the most remarkable documents that have ever been filed for record in the county. A fair sample of "fish rule" they are certainly excellent representations, although in this free and enlightened country they are not deemed the "proper caper," so to speak. The leases are all right for the Irvine Company who own something over 10,000 fertile acres in Santa Ana Valley, but to say that they are ruin to the tenants is not putting it in stronger terms than the public generally, in this county, considers them.

The farmers in that portion of the valley in which the big ranch is located, have rebelled against the inhuman imposition the ranch company has endeavored to force upon them. And are standing up against their landlord. They refuse to sign the leases, and are going right along with their farming. Their organization now takes in almost every tenant on the big ranch, and as they have all agreed to stand by each other, the Irvine will certainly find that he has a large undertaking if he starts in to eject them all from the ranch. Then, too, popular sentiment is very strong with the tenants, for no reasonable minded person wants to see such forms of tyrannical rule obtain in this county. It is believed now that Mr. Irvine will weaken on these iron-bound provisions, and allow the ranchers to continue on the big farm under the conditions of a wild-goose chase.

There was a typical wild-goose chase about five miles south of Santa Ana Thursday night, in which County Clerk Brock, Dr. J. M. Garnet, George A. Edgar, C. S. McKelvey, Deputy Attorney Recorder J. W. Taylor, and Tedford, all prominent citizens, were enthusiastically interested. The party was made up on the suggestion of Mr. Brock, who told such wonderful stories to the other members of the party of how the wild geese came flying over the mesa to a certain locality out near the hills, in such countless numbers, that it would be an utter impossibility for a school boy to find a "smooth-bore" in any direction without winging at least a small springer. At the lowest possible estimate at least 5000 of the geese, according to Mr. Brock, came in each evening between sundown and dark to feed on the tender grass blades, on the higher mesas during the earlier part of the night.

No time was lost in the confident hunters gathering together their trusty "pieces," and a liberal amount of ammunition, and then they started for the selected spot. Mr. Brock in the lead. Arriving upon the ground each man started himself where he thought he would most likely find a goose. In view of the flocks as they would sweep down over the hunter's head to be shot, and then they waited. Time passed. Moments were told in minutes, yet not a "honker" stretched his neck over the green sward in the fading moonlight for the then somewhat nervous gunners to take a bead on. No rapid firing told of how the geese were being mowed down by the deadly aim of the determined hunters. It had not been for the occasional call from the stationed pickets of "Oh, Dave! which way're they coming?" no sound would have broken the stillness. Had it not been so soft and yet distinctly clear, "Way're they coming?" The gentlemen who composed the party, however, were not to be interviewed, but they refer the reporters to Mr. Brock.

SATURDAY'S EXCURSION.  
Santa Ana will be well represented in Los Angeles tomorrow (Saturday). A committee of ladies and gentlemen have been busy today at the Santa Fe depot decorating several coaches which will be used to make up the special train from Los Angeles to Santa Ana. The committee will take the Santa Fe depot decorating several coaches which will be used to make up the special train from Los Angeles to Santa Ana.

ORANGE COUNTY BREVIETTES.  
The motion for a new trial in the damage case of Jacob Yeager vs. Southern California Railway Company, heretofore submitted and taken under advisement by J. W. Towner, Judge of the Superior Court, was on Friday denied. Attorney Chynoweth for the plaintiff states that he will appeal the case.

Rev. Dr. Carlos Martyn lectured in Sturgeon's Hall, Santa Ana, Thursday evening on "American Citizenship." To an appreciative audience. The doctor is a very forcible speaker, and it is well worth any one's while to hear him.

A. Fankhouser and wife of Portland, Or., who have been visiting friends in the Santa Ana Valley the past several months, will depart for their northern home in a few days. Prof. Leslie Much of Connecticut will deliver a lecture in Mills Hall at Santa Ana next Monday evening on "Hereditary or the Evolution of Excellence."

Miss Cora Mills has returned to Santa Ana from Bakersfield, where she has been engaged in business for the past several months.

Albert Moody, a native of England and a resident of Orange county, was made a citizen Friday by Superior Judge Towner.

The hearing of the case of Leo Stephens, charged with selling liquor without a license, has been continued to February 25.

The final account of the assignee in the case of J. M. Dawson, insolvent, has been approved, allowed and settled.

Sailors Enjoying Themselves on  
Shore—News Notes.

SAN DIEGO, Feb. 21.—(Regular Correspondence.) The occupants of the scout-war in this harbor have all sorts of ways of enjoying themselves while ashore. On Thursday as some of the officers of the Philadelphia were partaking of a pink dinner at Coronado, two of their men enjoyed themselves with a pink affair at a Fifth-street saloon. They quarreled. One man whipped out a knife and endeavored to carve out the eye of his comrade. The latter objected. He emphasized his objection by slashing his comrade so severely as to sever an artery. For a time it was feared that the sportive war would die. A hurry call for a physician saved a life. The doctor worked vigorously and finally stanching the flow of blood. It was a close call for the seamen. Both men will live.

The action brought by George Neale, L. H. Green and others against O. J. Stough and stockholders of the Moreno Company resulted in an overwhelming victory for Mr. Stough. The plaintiffs charged fraudulent practice on the part of the defendants in managing the sale of the Moreno Company. So complete is the vindication of the defendants that the plaintiffs are ordered to pay the costs.

Samuel Woodward secures a judgment for \$5044 against Mary M. Clark. Gen. Frost will confer the degree of chivalry on the members of the I.O.O.F. on Friday night.

Twenty-two members of the Knights Templars will participate in the corner-stone exercises at the Masonic Temple in Los Angeles on Saturday.

A mining boom is reported to have struck San Jacinto. Little more than a year ago, however, is the basis for the excitement.

D. M. McFall says Jerry Toles in the Superior Court for \$14,000.

J. R. Wade will build a brick warehouse for the San Diego Savings Bank on lot G, Horton's addition, to cost \$110,000.

Alphonso Granger files a demurrer in the suit by C. C. Beaman for \$10,000 for alleged breach of contract.

The contractors for the Marston Block are awarded as follows: Foundations and stone work, Simpson & Pirmie, \$7235; Stern Bros., iron and steel, \$8897; Sinclair & Bowler, brick work and plastering, \$16,620; J. S. Jonsson & Sons, plumbing and tinning, \$1798; Jones & Butler, painting, \$960; W. P. Fuller, electrician, \$1000.

The Chamber of Commerce will arrange for the Southern California Railway for a cheap-rate excursion from Los Angeles and other Southern California points to this city on February 23.

W. S. Manning has sent a force of men to develop the Manning gypsum mine.

Efforts will be made by the Chamber of Commerce to establish its terminus at this port. A. H. Butler, formerly of this city, is said to represent Japanese parties in the matter. A correspondence will be maintained with him.

The yacht Santa Diego has returned from Catalina with the Jaquith party. Capt. Nicholas Ludlow, U.S.N., is expected to arrive on Friday to take command of the coast-defense vessel Monterey.

## POMONA.

How Horace's Head Depreciated.  
Unitarian Conference.

POMONA, Feb. 21.—(Regular Correspondence.) The public auction sale of a large number of horses of all ages and degrees that took place in Pomona yesterday afternoon is another indication of the worst of the depression in horse-flesh in this State. Indeed, all over the West. The sale was well advertised and a large number of people were present. Several horses were sold for very low prices. One horse, a fine bay, was sold for \$10. Another, a fine black, for \$15. A third, a fine white, for \$20. A fourth, a fine brown, for \$25. A fifth, a fine grey, for \$30. A sixth, a fine chestnut, for \$35. A seventh, a fine sorrel, for \$40. An eighth, a fine bay, for \$45. A ninth, a fine black, for \$50. A tenth, a fine white, for \$55. A eleventh, a fine brown, for \$60. A twelfth, a fine grey, for \$65. A thirteenth, a fine chestnut, for \$70. A fourteenth, a fine sorrel, for \$75. A fifteenth, a fine bay, for \$80. A sixteenth, a fine black, for \$85. A ninety-ninth, a fine bay, for \$500. A hundredth, a fine black, for \$505.

BUYING THE CHINO RANCH.  
A good deal of discussion has been created here by the report that the firm of Easton, Eldridge & Co. of San Francisco has bought 40,000 acres of the great Chino ranch and cable street to this city on the southeast. Messrs. Easton and Eldridge say that they have nearly completed negotiations with a syndicate of Birmingham and London Englishmen for the purchase of the Chino ranch, including the narrow-gauge Chino Valley Railroad, and all the appertaining water rights. The option on the property is for \$1,600,000.

POMONA BREVIETTES.  
Rev. F. M. Dowling of the Christian Church is making ready for a series of old-fashioned religious revival meetings to be begun in about four weeks.

A conference of the Unitarian churches of Southern California will be held at the Unitarian Church in Pomona next Tuesday evening, February 23.

The fear that this is going to be a dry winter has been partially dispelled by the slight cloudiness, and the cooler weather that has prevailed in Pomona today. Grain can stand two weeks more of dry weather, but unless a heavy and long-continued rain comes by that time even the best of horse-feed crops in this part of the country will be small for this year.

Apricot trees have come into blossom in several localities in Pomona Valley in the past week because of the dry, summer-like weather.

A great many Pomona people have gone to Los Angeles to see the Soldiers' Home today to witness the progress of constructing the Covina Branch of the Southern Pacific Railroad toward Pomona.

A FIFTY-CENT SEAS D. TRIP.  
To Santa Monica today. See Soldiers' Home. Port Los Angeles' longest ocean pier in the world. Fine fishing, bathing, driving. Enjoy a good fish dinner; go to the race meet and see the crack-jacks and soldiers ride. Take the Southern Pacific. Trains leave at 9:30 a.m., 1:30 p.m. Round-trip \$1.00.

Exhaustive analysis fails to reveal any adulteration in Dr. Price's Baking Powder.

## RIVERSIDE COUNTY.

SOME FEATURES OF THE COMING  
CITY ELECTION.

Something More Than Submission of  
the Saloon Question Demanded.  
Shooting Contest Today—School  
Exercises—Notes and Personal.

RIVERSIDE, Feb. 21.—(Regular Correspondence.) Go where one will in the city the coming election is the subject of conversation. The politicians are congratulating themselves over the temperance question by the direct submission of the problem. But this question has been buried too often not to know how to dig out of the grave. License men, who do not hesitate to avow their belief, say that submission hurts no one, but in addition they want pledges from the candidates, as their representative of the same. So that, after all, the issue is the same as it was before this expedient for avoiding committing candidates was invented. The saloon question is overwhelmingly voted the issue of the election.

There are some local features of the election. Residents of the East Side will support the man living nearest them, as their representative with little regard for the other issues of the campaign.

The A.P.A., while not advertising its plan, will probably not put up a ticket, but will make sure that no man is nominated who is objectionable. Beyond this, it is thought each individual will follow his own inclination.

RIVERSIDE BREVIETTES.  
Saturday will witness some interesting contests of skill with the rifle. The Santa Ana and Riverside teams will have a lively contest and indicate that the Santa Ana team will win.

John W. Merrill, an old citizen of Riverside, died at his residence on Valentine street, at the age of 54 years.

Very interesting exercises were held today in the public schools, the High School especially having a delightful programme.

Brayton D. Gardner has petitioned for letters of administration on the estate of Moses McCarty, deceased, at the Los Angeles National Bank has brought suit against Margaret C. Herriott et al. for \$693.45.

Groceries will close Saturday at noon and other business houses will be closed all day.

W. S. Manning has sent a force of men to develop the Manning gypsum mine.

The sky is overclouded today, once more raising hope that rain is coming.

SANTA BARBARA COUNTY.  
Efforts to Secure Pardon for a Stage Robber.

SANTA BARBARA, Feb. 21.—(Regular Correspondence.) The preparation of the bark Enoch Talbot, Capt. Johnson, for the trial of the stage robbery at Santa Barbara, has been nearly completed, and the boat will probably be ready to receive a cargo in about a week. As heretofore published in The Times, the lower part of the hold has been divided into compartments, as is shown in the accompanying illustration. The compartments are of uneven sizes, and it is, therefore, difficult to estimate accurately the capacity of the tanks. It is shown that the capacity is about seven thousand barrels. The compartments are connected, but may be separated. A pump is being installed so that oil may be pumped in or out of the boat, and if occasion demand, the pump may be used to throw a powerful stream of water in case of fire. The sails have been sent, and the bark is rigged ready to put to sea. She will sail to San Francisco after being towed out of the harbor.

A rumor has obtained general circulation about here to the effect that the Enoch Talbot would be loaded with oil from Port Los Angeles instead of from this port. From a source which is believed to be authoritative, it was learned today that she will be loaded from this port.

A CHINESE JUNK.  
Deputy Customs Collector Bell and Inspector Cooney boarded a small Chinese junk which came into the harbor Thursday noon. The craft, which is of a sort seldom seen in waters near here, was manned by two Chinese and carried a complete outfit of provisions. They had a complete outfit of provisions in the hold. Besides a large quantity of abalone shells, they had a large quantity of sundries and various kinds of goods, some of them undergoing a curing process. The cargo was all examined, but no evidences of attempts to smuggle opium were discovered.

BIG CATCH OF SARDINES.  
A remarkably fine catch of sardines was made Thursday. Boats from each of the two canneries were loaded with the little fish in the inner harbor and the canneries. Altogether, nine tons of sardines were taken, and both canning places are running full blast, packing the catch.

VESSEL MOVEMENTS.  
Recent arrivals at this port include: February 19, steamer St. Paul, Capt. Duggan, from San Francisco with freight and passengers. Steamer Caspar, Capt. Alinson, from Caspar, 19,000 feet of lumber. Steamer Sunol, Capt. Walwig, from Point Arena, with 11,300 railroad ties. Barkentine Portland, Capt. Dermott, from Seattle, with 60,000 feet of lumber. Schooner Halcon, Capt. Muller, from Eureka, with 399,000 feet of lumber.

February 21, steamer Pasadena, Capt. Hamilton, from Eureka with 291,000 feet of lumber. Steamer Falcon, with passengers and freight from Catalina.

BREVIETTES.  
Mrs. Della Henderson of Riverside is visiting Mr. and Mrs. C. M. Bell. She will probably remain in town for several weeks.

Jacob Swart of San Francisco, formerly civil engineer on the harbor work here, is visiting A. Muller.

The oil well a short distance west of town has reached a depth of about 535 feet. The indications continue to be gratifying.

A new paper, the San Pedro American, is to be started in this town by A. Bynon, editor of the Compton Enterprise.

The brig Tanner, Capt. Brown, will sail in a few days for Vancouver, B. C., for a cargo of rough lumber, to be brought to this port. It is the first importation of shipping lumber here from British Columbia since last July. There is no import duty on undressed lumber, and it can, therefore, be brought with profit. It is said, from British Columbia, where it can be obtained cheaply.

## SAN BERNARDINO COUNTY.

No Election of Trustees is to Be  
Held.

SAN BERNARDINO, Feb. 21.—(Regular Correspondence.) The meeting of voters of the Second Ward Thursday evening was a surprise to all who had not previously been taken into the intentions of the political managers. A resolution was passed, on the basis of 25 to 25, that the board be requested to hold no election.

The contest according to one side is a continuation of a fight two years old between the Mercantile Association and the Citizens' League. The former has stood for a free and easy city government. The latter has demanded certain restrictions of license, saloons and the suppression of gambling. The former element had three representatives on the Board of Trustees. The latter had two. One of the latter, Hon. Hiram Barton, resigned, leaving Mr. Ham alone as the exponent of reform. Mr. Pace of the majority became dissatisfied with demands made upon him, and has on most propositions lately, affiliated with Mr. Ham. There being but four members of the board, equality divided, it became impossible for them to fill the vacancy caused by the resignation of Mr. Barton. The Citizens' League wanted an election, believing they could carry the ward. The opposition did not want an election, for Sunday Times stood upon the broad ground of carrying the mass-meeting Thursday evening, thus blocking the attempt to fill the vacancy.

The opposition tell a different story. They say that Robert Blow, the City Treasurer, has several thousand dollars in the bank, and that he is a member of the Citizens' League. ## REDLANDS.

Order of March and Other Celebra-  
tion Notes.

REDLANDS, Feb. 21.—(Regular Correspondence.) On Saturday matter is talked on the streets. Everybody is preparing for Saturday's celebration, and indications for a big crowd are most favorable.

At 9 a.m. will come the first event, the bicycle road race of some miles. A number of entries are made.

As soon after the excursion trains arrive as possible the parade will take place, not later than 10:30.

Following is the order of the procession: Grand Marshal, Maj. J. W. F. Dias, N. C.

Chief of staff, Benjamin Pearson. Aldes, U. L. Dike, W. H. Bryan, O. D. Collins, J. A. Rivera, H. W. Allen, J. Stevenson, W. Johnson, C. Gifford, F. W. Nutter and J. A. Doyle. Orderly trumpeter, George A. Iabell, Riverside Band.

PLEADING FOR JUSTICE.

GUSTAVE DE LAVERAUX TAKES AN APPEAL.

He Reminds the Court that Small Mice Sometimes Chew the Ropes that Bind Large and Powerful Lions—The Country in Danger.

When Gustave de Laveaux appeared before Acting Joliet Judge Rosier yesterday for sentence on account of his having been found guilty of being drunk, he was accompanied by Attorney Horace Appel, who moved to have the judgment of the court set aside and the case retried by a jury. The Judge denied the motion, and Mr. Appel took an appeal. He also moved for a stay of sentence, which was that the defendant pay a fine of \$15, serve fifteen days in the City Jail. This was also denied and an exception noted. The defendant was released on \$15 cash bail or \$25 bond, pending appeal.

When De Laveaux was asked whether he had anything to say why sentence should not be pronounced, he drew forth a big roll of manuscript, and was going to read a speech which he had prepared for the occasion. Attorney Appel choked him off, however, but De Laveaux was bound that his effusion should not escape the notice of the court, so he passed the manuscript up to his Honor for his perusal.

From Mr. de Laveaux's speech, a copy of which a Times reporter secured, the following unimpaired and striking paragraphs are taken:

"Your Honor refused me the right to be tried by my fellow-citizens, something more for justice. If justice is trampled down, this country is in danger; small mice sometimes chew the ropes that bind large and powerful lions. There is a liability of the rising in Los Angeles of a second Pancreus of New York, for the benefit of the oppressed community by a clique of corrupt politicians. (The orator evidently had reference to Dr. Parkhurst—Ed.)

"Your Honor, being a stranger in this city, will kindly permit me to analyze the testimony.

"The policeman, numbered 66, that arrested me, admits that he accosted me prior to my arrest when I was riding on horseback. The controversy is, whether he called me a — or not; it is my word or his. Your Honor, I think, should give me the credit of the doubt.

"Why did he not then arrest me? I arrived at Mr. Lopicich's drug store and watered my horse. Here I met Officer Johnson; why did this gentleman not arrest me if I were drunk? I mounted my horse and proceeded to the police family—that I am able to produce in court at any time, if necessary—came back to the drug store, and rendered the horse to Mr. Lopicich. I again met Officer Johnson and asked him the name of the uneducated 'scrub' numbered 66, as Mr. Johnson testified. Mr. Johnson is as good an officer as the police force can boast of. Why did he not arrest me this second time? There is a very strong moral corroborative of the fact that the policeman, numbered 66, insulted me.

"Officer No. 66 swears positively that he arrested me on the corner of Los Angeles and Winston streets; Frankowski swears that it was on Los Angeles between Third and Fourth streets, which corroborates my statement. It is very evident that it was only my good luck that this working man Frankowski was with me at the time of my perambulation through the alley from Winston to Fourth street, where the policeman dragged me for the purpose of clubbing me, or I now might be in the morgue or in a hospital with a cracked skull.

"I think it would not be necessary for a King Solomon to determine whether or not I was beastly drunk at the time.

"To discuss the testimony of the whole string of policemen that swore to facts after my arrest is to discuss the loss of time—it is the testimony of the 'ring.'

"As to how I was treated in jail Your Honor would not allow me to testify, but I had asked Your Honor for protection when I was arraigned. I think Your Honor will admit that there is a 'nigger in the fence.'

"Regarding the testimony of J. W. Mayo, the drug clerk, I will state that he is a personal friend of J. H. Johnson, the constable, and that 'settles it.'

"An individual such as an Alameda-street deputy constable under J. H. Johnson is not worthy the prosecution for perjury. If he only has rope enough he will hang sooner or later.

"In summing up all the evidence: Who is against me? A string of officers. Who testified for me? Men who are among the best citizens of this city, and honest, hard-working men. Fiat justitia.

Grandma Scott's Pathetic Story as Related to Capt. Roberts.

A pleasant-faced old lady called on Police Captain Roberts a few days ago and in the course of her inquiry concerning her father's family, related the following pathetic story:

Her father, Hosea Roberts, lived at the time of her birth in the State of Missouri, but Mrs. Scott has long since forgotten the name of the place. She was the seventh of ten children—Joshua, William, George, John, Asa, Green, Nancy, James, Eli, Elizabeth and a babe which died. Her father, who was a wagon-maker, removed to Louisville, Ky., where his first wife died in 1836. They were neighbors to the family of Will S. Hays, the song-writer. After her mother's death, her father gave the little girl to a woman by the name of Gilmore, whose husband was a noted gunsmith. Mrs. Gilmore had a sister named Emerson who lived near St. Louis, Mo. This woman paid Mrs. Gilmore a visit and on her return to St. Louis took the child with her without the father's knowledge. Learning of the whereabouts of the child, and having married again, the father sent three of her young brothers to bring her home. Fearing to cast her lot with a step-mother she had never seen, the little girl—then about 10 years of age—refused to go.

When grown to womanhood Mrs. Scott returned to Louisville, where she married John W. Scott in 1851, at which time she had lived since. She is now visiting her daughter, Mrs. Louis Miller, at First and Belmont avenue, this city. Mrs. Scott is now nearly 70 years old, and through all her long life has sought vainly for tidings of her kindred, but so far in vain. Her short meeting with her little brothers at St. Louis so long ago, was the last she ever saw or heard of any of her family.

Learning that Capt. Roberts bore her family name, she called on him, hoping she might learn something of her long lost kindred—only to go away sorrowing and disappointed.

TWO OF A KIND.

Unlabeled Swains Punished for Baiting Women.

Frank Sanchez and Juan Perez are two unlabeled swains who were tried in the Police Court yesterday for similar offenses.

Sanchez was found guilty of disturbing the peace of Officer Henderson, and was fined \$15, though, as a matter of fact, his crime consisted of tearing the robes of a frail female in Little Paree, leaving her with nothing except an abbreviated chemise to hide her nakedness. He also choked and beat her, all because the unfortunate cyprine had refused to have him for her macqueron. The brawny scallawag had the effrontery to explain that he rent the woman's garments because he had bought them for her and he thought he had a right to take them away.

Juan Perez was found guilty of battery and was fined \$10 for using force and violence upon the person of Lizzie Luyes.

At Soldiers' Home.

Today, the one hundred and sixty-fourth anniversary of the birthday of Washington will be observed as a general holiday at Soldiers' Home. All labor, excepting such as is absolutely necessary, will be suspended during the day. A large delegation of children from Los Angeles schools is expected to go down on the morning train, and as the children will be escorted by the children to the flagstaff, where the flag will be saluted and the children will repeat the pledge of allegiance. The home band will be at the railroad station at 9:30 a.m., and play when the train arrives. The garrison flag will be displayed at full mast from sunrise to sunset.

FOR breakfast tomorrow eat Pure Food Gemlet, drink Pure Food Coffee. Sold by all grocers.

HOW TO INVEST.

These Are Suggestions of Value to Any Reader at the Present Time.

"If you are going to make an investment, you look carefully and learn the value of the thing in which you are about to invest. Is this not so?"

"If you are run down, sickly, weak, suffering from a severe cold, rheumatism or other complaint, you feel that you must invest in something to restore you to health and happiness."

"Can you not see that such an investment is more important than any other, and can you not see that securing the best, most reliable, and the which has the highest standing and best endorsements, is always the best investment?"

"There has never been a remedy before the world which for the cure of the diseases of this season, female weaknesses, rheumatism, kidney and liver troubles, and even Bright's disease itself, has ever been equal to that greatest of all known remedies, Warner's Safe Cure. It has accomplished more than any other known preparation, and occupies a standing in medical science wholly by itself and above any ordinary remedy."

"This great preparation has been endorsed by the leading medical men of the various countries of Europe, America, Australia, and even India. It is beyond question the most popular of all remedies, and it deserves its popularity fully."

The above simple and direct words are laid before you in order that you may avail yourself of the suggestions they may contain, if you so desire.

SARA RIDES A FOWLER.

Sara Bernhardt, the celebrated actress, was a visitor at the New York Cycle show and while there selected her mount for '96. After viewing the many excellent wheels on exhibition she selected the Fowler. Recently she tried her new mount and she was so pleased with it that she wired President Fowler, of the Fowler Co., as follows: "I cannot tell you how much I thank you for your admirable bicycle. It is exquisite, tried it yesterday and found it very light and easy. I do believe I am a million times overjoyed at it."

THE DOCTOR'S EXAMINATION.

White.

Do you have dull headaches? Yes, doctor.

Do you feel drowsy? Yes, doctor.

Do you feel exhausted after the least exertion? Yes, doctor.

Can you eat your food with relish? No, doctor.

Do you sleep soundly and awake refreshed? No, doctor.

Do you feel a sense of heaviness after eating? Yes, doctor.

Sometimes your stomach becomes sour? Yes, doctor.

Gases arise? Yes, doctor.

You are suffering from dyspepsia and a torpid liver. These symptoms prove this to be the correct diagnosis. You have no cause to fear about the fluttering of the heart; it is due to gases pressing about the region of the heart.

You need a mild liver and bowel regulator. Your dyspepsia is not chronic. The remedy I will prescribe must be taken for a while. It will give you instant relief, but it takes time to cure you. I will write a prescription.

R. Joy's Vegetable Sarsaparilla. (One bottle.)

M. R. Take two teaspoonfuls three times a day. When the bowels are regular take one teaspoonful three times daily.

DEATH TO FRUIT PESTS.

To Make the Orchard pay you must spray, winter and summer, with Prof. Brown's Insect Extremator, the only insecticide known that will kill all insect life without injury to Tree, Fruit or Foliage.

Endorsed by the State Board of Horticulture of California, Oregon and Washington. Used by many nurseries and orchardists. My winter wash is the only solution that will kill the woolly aphis (use only while the foliage is off). My summer wash is a sure destroyer of the codling moth eggs, and all insects except woolly aphis (use just after the blossoms fall off). My hop-house wash kills all insects that infest vines, vegetables or plants.

The ingredients used in my formulas can be found in any drug store, costs much less than other washes. (Full and explicit directions for mixing and using.)

Knowing I have a sure remedy, some unprincipled parties are now selling imitations. Therefore, to discourage all such parties, I have concluded (for a short time only) to reduce the price of the three formulas to \$1.50 by mail to any address. Formulas copyright, Jan. 14, 1896. P. O. box 227. By W. H. Brown, entomologist, San Francisco, Cal. (Mention this paper.)
